Services)	
)	
Implementation of Section 309(j))	
of the Communications Act -)	PP Docket No. 93-253
Competitive Bidding)	
800 MHz SMR)	

To: The Commission

COMMENTS

The Personal Communications Industry Association ("PCIA")¹, through its counsel and pursuant to Section 1.106(g) of the Commission's Rules, 47 C.F.R. §1.106(g), hereby respectfully its Comments in response to the Petitions for Reconsideration of the Federal Communications

¹PCIA is the only international trade association representing the interests of both commercial mobile radio service ("CMRS") and private mobile radio service ("PMRS") users and businesses involved in all facets of the personal communications industry. PCIA's Federation of Councils include: the Paging and Narrowband PCS Alliance, the Broadband PCS Alliance, the Mobile Wireless Communications Alliance, the Site Owners and Managers Association, the Association of Communications Technicians, and the Private System Users Alliance. In addition, PCIA is the FCC-appointed frequency coordinator for the Business Radio Service, the 800 and 900 MHz Business Pools, 800 MHz General Category frequencies for Business eligibles and conventional SMR systems, and for the 929 MHz paging frequencies.

Commission's ("FCC") Second Report and Order ("Second Report and Order") in the above-captioned proceeding.²

PCIA has reviewed the various Petitions for Reconsideration in this proceeding, and believes that the Petitions can be classified into two groups: (1) those Petitions that request reconsideration of the entire procedure for licensing spectrum in the band;³ and (2) those Petitions that request reconsideration of specific adopted rules in order to make the adopted procedures more equitable and workable.⁴

Generally, all of these Petitions espouse the same dissatisfaction with the Commission's rule changes. However, one group would like the Commission to change its decision to hold auctions, while the other group disagrees with auctions for this band, but feels the need to have the unending "freeze" lifted.

As discussed in PCIA's Petition for Reconsideration, PCIA believes in the philosophy of the second group. PCIA believes that virtually every point made by SBT and others is correct. In fact, they are primarily points made by PCIA years ago. However, PCIA believes that the 800 MHz industry can no longer afford to "win" this battle, and further delay the progress and growth of licensees in this band. Therefore, PCIA supports the incremental changes which it has proposed, as well as the changes proposed by AMTA and others.

²62 FR 49986 (September 24, 1997).

³See, the Petitions for Reconsideration filed by Small Business in Telecommunications ("SBT"), the Industrial Telecommunications Association ("ITA") and the Automobile Club of Southern California.

⁴See, the Petitions for Reconsideration filed by PCIA, the American Mobile Telecommunications Association ("AMTA"), Genesee Business Radio Systems, Inc. and Entergy Services, Inc.

PCIA wishes to reiterate that it's support of the changes which the Petitioners have proposed should not be taken to mean that PCIA supports the Commission's decision to auction 800 MHz spectrum. Rather, PCIA's position is based upon the evaluation of PCIA's members as to what position will best allow them to grow and compete.⁵

⁵AMTA also requests that it be designated a "clearinghouse" for determination of contribution payments between EA licensees. PCIA has previously offered to provide such service, as it is currently performing this task in the PCS bands, and PCIA reiterates its offer to act as an SMR clearinghouse should the Commission reconsider its decision.

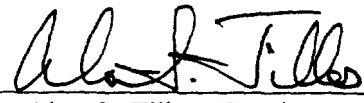

III. CONCLUSION

For the foregoing reasons, PCIA urges the Commission to modify its proposed rules for 800 MHz licensing consistent with the views expressed herein.

Respectfully submitted,

**PERSONAL COMMUNICATIONS
INDUSTRY ASSOCIATION**
